

COMMUNIQUE AFTER MDC INTERNATIONAL RESEARCH CONFERENCE HELD FROM 19TH -21ST JUNE, 2017 AT CRYSTAL PALACE HOTEL, ENUGU, ENUGU STATE, NIGERIA

Topic: Implementation of Research Findings: A Key To Economic Growth

1. Relationship between cash flow components and performance of commercial banks in Nigeria.

Recommendations

- ✓ Banks, while holding their liquidity preference tenaciously should look for a better strategy to execute their operations through diversification as well balance liquidity and profitability.
- ✓ They should equally keep pace with their asset quality by combining efficiency in operating, investing and financing approaches.
- ✓ Banks should be encouraged to channel cash towards profitable investments to enable them maximize shareholders wealth as well as boosting their Return on Asset (ROA), Earning per Share (EPS) and their Market Price Per Share (MPPS).

2. Appraisal of the activities of anti-graft agencies towards curbing corruption and financial crimes in Nigeria, the main issues are;

Recommendations;

- ✓ Poverty alleviation programmes must be pursued to help people avoid the temptation of colluding.
- ✓ Government should allow these anti-graft agencies to work on their own, that is, uprightness, sense of responsibilities.
- ✓ Increasing workers remuneration, motivations and incentives given to government workers to help reduce the tendency towards corruption.

3. Effectiveness of supplementary electronic audio course materials among students of Enugu State University of Science and Technology, Enugu, Nigeria.

Recommendations

- ✓ Use of whatsapp audio as supplementary course materials (webmail, facebook etc).
- ✓ Government should help in this virtual method by providing good network services.
- ✓ Schools (universities and other tertiary institutions) should embark intensively and extensively on e-learning.

4. Prevalence of Extended Spectrum Beta-Lactamases (ESBL) producing gram-negative bacteria from Nnamdi Azikiwe University Teaching Hospital Nnewi, Anambra State, Nigeria.

Recommendations

- ✓ Sound hygiene is important in laboratory test.
- ✓ Patients should avoid indiscriminate use of antibiotics, that is, self medication is highly discouraged.
- ✓ Consulting medical doctors before using any antibiotic should be strictly adhered to.
- ✓ Antibiotic surveillance is necessary

5. Automobile emission control in Nigeria: A neglected health hazard

The study highlighted the harmful effects of engine emissions and made the following recommendations.

Recommendations

- ✓ We have to redesign the engines we use for cars, generators etc to be more environment friendly.
- ✓ Use less carbon emitting substances and tablets for our petrol.

6. Negligence and other factors that affect voting behavior in Nkanu East Local Government Area of Enugu State of Nigeria (1999-2016).

Recommendations

- ✓ Provision of electricity, good road network even if not tarred road, portable water supply, provision of employment.
- ✓ Provision of proper voter education.
- ✓ Citizens should improve and ignore monetary gifts by the politicians (that is, attitudinal change of the electorate).
- ✓ Independent National Electoral Commission (INEC) should be transparent.

7. Responsiveness of organizational performance to environmental accounting information of motor vehicle manufacturing organizations in south east. Nigeria.

Recommendations

- ✓ Motor vehicle manufacturing (MVM) firms should include environmental cost.
- ✓ Government should enforce this inclusion in all MVM firms so as to lead to more efficient accounting system.

8. Place of accounting knowledge in entrepreneurial success in Nigeria.

Recommendations

- ✓ Entrepreneurs should imbibe effective accounting knowledge.
- ✓ They should use identified business factors for their own success.
- ❖ Implementation of our research findings is one way to grow our GDP
- ❖ Going entrepreneur in all areas or fields is simply inevitable.
- ❖ Micro research embarked upon to handle micro issues or problems is one way to implement research findings

9. Impact of congenital malfunctioning in Down syndrome.

Recommendations

- ✓ People should stop stigmatization of Down syndrome people.
- ✓ Early medical checkup during pregnancy.
- ✓ Health practitioners should develop methods of identifying and correcting congenital.

10. Children with learning disabilities (Strategies for a way forward).

Recommendations

- ✓ Inclusive education should be implemented.
- ✓ All educationists should be taught on how to handle these children.
- ✓ Some of them can contribute to growth of society if they are educated and trained.

11. Availability and utilization of digital media in secondary schools in Enugu State, Nigeria.

Recommendations

- ✓ Teachers should undergo ICT training so as to use it in teaching.
- ✓ ICT facilities should be made available to students so that students of Enugu can compete with others.
